INVESTMENT STRATEGY

VPEG6 will make investments directly into 8 - 10 top quartile performing private equity funds in Australia within the lower to mid-market segment, diversified across vintage year, manager style and financing stage. When fully invested the Fund will ultimately have invested in 50 - 60 underlying portfolio company investments across Australia and New Zealand, further diversified across growth and defensive industry sectors including the Healthcare, Consumer Staples, Industrials, Information Technology and Agricultural sectors. This significant level of diversification reduces the risk of loss and enhances the overall return for investors.

Vantage has entrenched relationships with high quality private equity managers, which also provides the Fund with the ability to make co-investments into the most attractive opportunities in the market managed by the top tier private equity managers.

INVESTMENT PROCESS & COMMITTEE

Vantage systematically follows an underlying fund selection and investment process. For each fund, Vantage evaluates a considerable number of investment opportunities, selecting a limited number of high-quality private equity funds and direct co-investments. The Investment Committee oversees the investment process to ensure consistency and adherence to the investment guidelines.
